### STRATEGIC THOUGHT LEADERS

Haynes and Boone aims to promote the thought leadership of its great attorneys while also facilitating connections to global resources, in a continuous effort to serve as a quality partner to its network of clients and contacts. By building relationships with global strategic thought leaders, the Precision Medicine and Digital Health (PMDH) group strives to provide Haynes and Boone’s clients and network links to a platform of third-party advisors of various geographic and business focuses to serve as additional resources.

### R&D RIBITZKY

R&D Ribitzky delivers cross-functional advisory expertise to bring together clinical and business, science and technology, digital experience and product development, sales and marketing, and ecosystem enabling to its clients globally. R&D Ribitzky serves private and public-sector investors, startups and enterprise teams with access to strategic services to help accelerate digital health and precision medicine innovation.

### IASO VENTURES

Iaso Ventures is the nation’s first venture capital firm focused exclusively on the neuroscience and mental health sector. Iaso Ventures’ team of healthcare investors, executives and neuroscientists has decades of sector-specific investing and operating experience and provides an extensive network for deal sourcing, due diligence, and accelerated value creation. Iaso Ventures also operates a studio for venture creation and acceleration, which works with game-changing companies both at the early and growth stages, helping them to reach the next value inflection point at an accelerated pace.
