All corporate transactions – mergers and acquisitions, reorganizations, restructuring, offering, financing or investments – should be structured and carried out with careful consideration of the related federal and state consequences. Our tax team works closely with our corporate team to create innovative and tax-friendly solutions for our clients at the earliest possible stage of each transaction.

Our depth and breadth of experience enables us to assist a variety of corporate entities, including public, privately held, mid-sized, start-up, “S” and “check the box” companies, in many different types of transactions, including:

- Corporate acquisitions
- Tax-free reorganizations
- Restructurings
- Stock offerings
- Debt financings
- Mergers
- Spin-offs, split-offs and split-ups
- Leveraged buyouts

For all of these transactions, our goal is to help our clients achieve their objectives in the most tax-efficient and cost-efficient manner possible.
