2027 Summer Opportunities

Haynes and Boone, LLP

LEARNING. SHARING. CONNECTING.

A MESSAGE FROM THE FIRMWIDE ENTRY-LEVEL HIRING PARTNER, BRAD HOLDBROOK

“While the firm continues to grow (approaching 800 lawyers in 21 offices located around the world), Haynes Boone has maintained its client-first approach to the practice of law and the culture of teamwork that have been the foundation of the firm since its beginning 56 years ago. At Haynes Boone, you will have the opportunity to represent sophisticated clients on complex matters across more than 40 major legal practices and learn from talented attorneys that care about you and take a vested interest in your professional development. Here, our people are what set us apart and make this firm such a special place.

We anticipate that our 2027 1L class will be the largest in the history of the firm. Long before today’s accelerated Big Law recruiting calendar and jumbo offers, Haynes Boone has been focused on building relationships with 1Ls and 2Ls in our summer programs. The experience students receive in those summer programs along with those relationships help our first-year lawyers transition into the practice and become productive members of our team from a very early stage of their careers.

As the Firmwide Entry-Level Hiring Partner, I enjoy meeting and recruiting talented, driven students from law schools around the country to add to the already strong Haynes Boone culture. I am excited for you to get an opportunity to meet our lawyers and recruiting team on your law school campus, at a reception, or in an interview. In the following pages of this brochure, you will find much more information about our various summer opportunities and our participating offices. I encourage you to apply for the summer opportunities that interest you.”

TRADITIONAL SUMMER ASSOCIATE PROGRAMS

The Traditional 1L and 2L Programs are a ten-week clerkship that offer the opportunity to gain hands-on experience in the daily life of a Haynes Boone attorney. Summer Associates attend meetings, depositions, court hearings, and more to gain experience as a lawyer at Haynes Boone. They are paired with supervising partners and associate mentors that will work with them every day throughout the summer, and they will gain substantive skills and legal insight by attending regular practice group meetings where legal training is provided.

Law students with an interest in Intellectual Property that have either an academic background or relevant work experience in engineering, computer science, or physics are eligible to be considered for offices that offer Intellectual Property Opportunities. Selected candidates will have the opportunity to join our IP Patent Transactional and IP Patent Litigation practices and work with our attorneys on projects during their clerkships. Please note, law students interested in our IP Trademark & Advertising Opportunities do not require a technical background.

To apply for all opportunities, please include a copy of your resume, undergraduate transcripts (IP candidates only), law school transcripts (when available), and cover letter in the online application.

“Like many other law students, I was initially apprehensive to spend both of my summers at the same law firm. In hindsight, I am beyond thankful that I did. The summer associate program at Haynes Boone is designed to provide law students with an adequate breadth and depth of information. As a 1L summer associate, I gained an understanding of the various practice groups at the firm and the type of work that is performed. Not only did this assist me in discovering my interests and making informed decisions when selecting my second and third-year law school courses, it also assisted me in selecting two practice groups for my 2L summer, where I worked with a much narrower focus than the summer prior.

The summer associate program also afforded me two summers’ worth of fun and memorable events where I formed lasting relationships with attorneys at the firm and law students from across the country.”

TEMI FAYIGA

2023 & 2024 Summer Associate | The University of Texas School of Law Dallas Office

“The thing I valued most about my 1L summer at Haynes Boone was the experience of seeing how a successful law practice operates. I was able to work on wide variety of substantive legal assignments, which provided a lot of opportunities for professional growth. Just as importantly, I was shown how the firm’s structure, business considerations, and financials come together to build a strong organization.

Throughout that process, I worked closely with attorneys in my practice group and saw firsthand how they approach their work and collaborate with each other. I was also able to interact with partners and associates throughout the other areas through both work opportunities and social events, which helped highlight a culture where people genuinely enjoy working together and take an interest in each other’s success. By the end of the summer, I understood why so many attorneys choose Haynes Boone for life.”
