

Shipping and Energy Newsletter Spring 2025

March 27, 2025

PRACTICES Shipping

Welcome to the Spring 2025 edition of our Shipping and Energy Newsletter.

This edition features key insights on the U.S. government's proposals to curb shipbuilding in China and tips for buyers entering into shipbuilding contracts in today's seller's market.

There are articles on the growing importance of LNG in Africa, and the potential of small modular reactors for U.K. data centers and legal updates on the new Arbitration Act 2025 and recent English court judgments on guarantees and exclusion clauses as well as exciting news about the expansion of our London office.
