There are a number of health and welfare plan action items to address at the end of 2017 and early 2018. We have addressed these action items on our [HB Health and Welfare blog](#). These items include:

- Affordable Care Act (ACA) reporting for 2017 (*i.e.*, Forms 1094/1095) and related issues
- Issues that may impact plan design and/or written materials such as the ACA, plan design limits, wellness regulations, and federal agency enforcement activity
