

United Kingdom: Auto-Enrollment Deadlines Delayed for Medium and Small Employers

February 17, 2012

Employers in the UK with 250 or more employees will begin auto-enrolling employees in workplace pensions starting in October of this year. However, the dates have been delayed for medium and smaller employers: employers with 50 to 249 employees will begin in April 2014; employers with 30 to 49 employees will begin in August 2015; and employers with less than 30 employees will begin in January 2016. The full schedule can be found [here](#).
