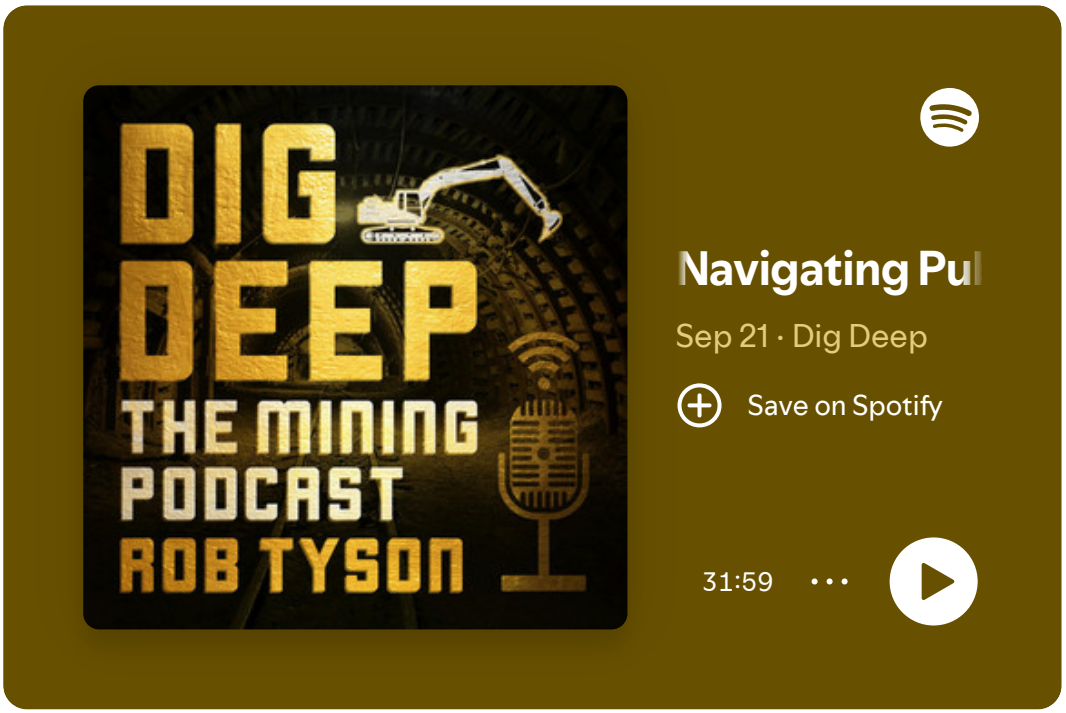
Nick Davis Joins Dig Deep: The Mining Podcast

By Nick Davis | September 22, 2026

RELATED PRACTICES Corporate - London, Capital Markets and Securities, Mining and Metals

Haynes Boone London Office Managing Partner Nick Davis recently joined Dig Deep The Mining Podcast with Rob Tyson to explore the changing landscape for mining and natural resources companies, including the renewed role of London's capital markets and the rise of critical minerals including tungsten, lithium and copper.



Davis also explored the growing intersection between mining and technology, including the demand for critical metals driven by data centers and the broader energy transition as companies are increasingly looking to dual-list across London and the United States.
