---

Haynes Boone advised TAO Digital Solutions Inc., a global provider of AI-driven technology and product engineering services, in securing a strategic growth investment from Vesper Company LLC.

The investment by Vesper, a private investment firm known for scaling technology and service businesses, will accelerate TAO's expansion in AI-driven product engineering and data services.

Emerging Companies and Venture Capital Partner [Roger Royse](#) led the effort for Haynes Boone with support from Capital Markets Associates Sarah Greibrok and [Andrew Lo](#).

TAO specializes in leveraging AI and data to deliver solutions across industries such as automotive, technology, fintech, healthcare and media. The partnership with Vesper will enable TAO to expand its global footprint, pursue M&A opportunities and enhance its AI capabilities.

Haynes Boone's [Emerging Companies and Venture Capital Practice Group](#) partners with entrepreneurs, startups and investors, offering guidance on entity formation, financings, commercial agreements, mergers, acquisitions and exits across industries such as technology, healthcare and fintech.
