

The Opportunities and Risks of the New Federal Stimulus Bill

February 19, 2009 Charles Plenge

PRACTICES Public Law, Government and Public Policy

The recently enacted Stimulus Bill is intended to create jobs, restore economic growth, and strengthen America's middle class through measures that modernize our nation's infrastructure, enhance our energy independence, expand educational opportunities, improve health care, provide tax relief, and protect those in need.

Could there be new opportunities for your organization? Should you be attentive to this bill? What are the potential benefits? And what of the risks and dangers? We encourage you to contact one of our attorneys to discuss any questions you may have.
