LANGUAGES

Dina Blikshteyn is a counsel in the Intellectual Property Practice Group in the New York office of Haynes and Boone. Dina's practice focuses on post grant proceedings before the U.S. Patent and Trademark Office, preparing and prosecuting domestic and international patent applications, as well as handling trademark and other IP disciplines.

Dina is a co-chair of the artificial intelligence practice at Haynes and Boone.

Dina focuses her patent practice on technology areas. Illustrative areas include artificial intelligence and machine learning, cloud computing, cyber security, web applications, map and navigation applications, point-of-sale systems, computer graphics, data structures, algorithms, distributed systems, client-server applications, CPU/GPU processor design, operating systems, mobile technologies, databases, database optimization, multimedia and video streaming, financial trading products, banking software, computerized auction software, healthcare systems, Internet systems, advertising software, wireless communication systems and applications, telecommunications systems, marketing applications, industrial control systems (ICS), cable systems, and smart grid and micro grid technologies.

In addition to her patent work, Dina is a member of Haynes and Boone's trademark group, and Dina's trademark practice encompasses a wide variety of worldwide trademark searching, clearance, prosecution, and related counseling matters in a diverse number of industries.

Prior to becoming a lawyer, Dina developed high-frequency trading systems that traded financial instruments on domestic and international exchanges.
