RELATED PRACTICES AI and Deep Learning, Intellectual Property Litigation, Patent Office Trials, Patents, Patent Prosecution and Counseling, Streaming Media, Intellectual Property

---

Dina Blikshteyn is a partner in the intellectual property practice group in the New York office of Haynes Boone. Dina's practice focuses on post grant proceedings before the U.S. Patent and Trademark Office, AI counseling, and preparing and prosecuting domestic and international patent applications.

Dina is co-chair of the artificial intelligence practice at Haynes Boone, and regularly speaks and writes on various AI topics.

Dina's patent practice focuses on technology areas. She regularly counsels clients on artificial intelligence and machine learning, cloud computing, cybersecurity, web applications, map and navigation applications, point-of-sale systems, computer graphics, data structures, algorithms, distributed systems, client-server applications, CPU/GPU processor design, operating systems, mobile technologies, databases, database optimization, multimedia and video streaming, financial trading products, banking software, computerized auction software, healthcare systems, internet systems, advertising software, wireless communication systems and applications, telecommunications systems, marketing applications, industrial control systems (ICS), cable systems, and smart grid and micro-grid technologies.

Prior to becoming a lawyer, Dina developed high-frequency trading systems that traded financial instruments on domestic and international exchanges.
