PRACTICES Environmental, Environmental Due Diligence, Remediation and Brownfields Developments, Permitting, Regulatory Counseling, and Compliance, Energy, Power and Natural Resources, Energy Regulatory, Litigation, Climate Change and Corporate Sustainability, Environmental Crimes, Environmental Litigation, Greenhouse Gases (GHG), Corporate, Project Finance and Development, Downstream, Midstream, Oilfield Services, Oil and Gas Litigation, Renewable Energy, Traditional Power, Chemical, Crisis Management, Energy Transition, Advertising, Marketing, and Promotional Law, Hydrogen, Nuclear Energy, Carbon Capture, Utilization, and Storage (CCUS), PFAS and Emerging Contaminants, Distressed Transactions, Texas Corporate Governance

Now in his fiftieth year of practice, Jeff Civins continues to enjoy helping clients find pragmatic solutions to tough problems involving all aspects of environmental law, including counseling them on regulatory issues, helping them manage environmental risks in business transactions, and advocating on their behalf before agencies and courts.

Having begun his professional career as a scientist and teacher, Jeff loves the challenge of making difficult things easy to understand, from groundwater hydrology to air dispersion modeling to toxicology. He's also passionate about understanding the ins and outs of his clients' businesses—from oil and gas exploration and development, power plants, refineries, chemical plants, and other manufacturing facilities, to real estate sales, leasing, development, and financing.

Jeff's experience includes many diverse and high-profile matters, including representing:

- A major multinational energy company in connection with regulatory issues associated with its proposed development of a multi-billion-dollar gas-to-liquids project on the Gulf Coast
- American Airlines in its settlement with United Airlines in a bankruptcy proceeding regarding contamination at JFK Airport
- A consortium of underwriters in counseling on environmental risks associated with the TXU buyout
- The U.S. Department of Treasury in conducting environmental due diligence of new General Motors
- Penn Central Corporation in its settlement of a Superfund case involving a former battery manufacturing facility on the banks of the Hudson River
- The State of Texas, working with the Department of Justice and EPA, in Clean Water Act enforcement litigation against an independent oil company involving numerous oil spills in six different states
- Crystal Lagoons in plotting a regulatory path for, and in obtaining, authorizations for the construction and operation of man-made lagoons powered by their technology in Texas

Following a summer as an analytical chemist for a predecessor agency of EPA, Jeff began his teaching career as a graduate assistant at Penn State, teaching organic chemistry lab to undergraduates. He then taught science, chemistry, and earth science in New York City public and private schools before attending the University of Texas School of Law. Jeff resumed his teaching career as an adjunct professor at UT Law School in 1987, teaching a seminar on Environmental Law Concerns to Business, and then, each spring since 1992, has taught a seminar on Environmental Litigation.

Jeff's love of learning and teaching is reflected in his many speaking engagements and articles and in his being frequently called on by media for his views on developing topics. Jeff is particularly well known for his roles as standing chair and organizer of the Texas Environmental Superconference, the premier environmental program in Texas, now in its 36th year, and as organizer and co-editor of the Thomson Reuters Texas Practice two-volume treatise on *Texas Environmental Law*. In recognition of these and other contributions to the Environmental and Natural Resources Law Section of the State Bar of Texas, including having been a former chair, the Section recognized Jeff in 2023 with the creation of the "Jeff Civins Volunteer of the Year Award." Jeff is also a fellow of the select American College of Environmental Lawyers, a member of the Advisory Council of the Kay Bailey Hutchison Center for Energy, Law & Business, a member of the practicalESG.com Advisory Board, and chair of the EarthxLaw Advisory Council.

In the community, Jeff's passion for education has carried over to his commitment to the Central Texas Chapter of Communities In Schools, a non-profit that helps keep at-risk kids in school.

QUALIFICATIONS

EDUCATION

- J.D., The University of Texas School of Law, 1975, *with honors*; Order of the Coif
- M.S., Chemistry, Pennsylvania State University, 1970
- A.B., Chemistry, Brandeis University, 1967

 - Chair, EarthX Law Advisory Council
 - Member, Advisory Council of the Kay Bailey Hutchison Center for Energy, Law & Business
 - Member, Advisory Board, practicalESG.com
 - Member, Administrative Law and Litigation Sections, State Bar of Texas
 - Member, American Bar Association, Sections of Environment, Energy, and Resources, and of Litigation and Administrative Law
 - Member and Former Chair, Air and Waste Management Association, Central Texas Chapter
 - Member, Equal Justice America, Advisory Board
 - Former Member, University of Texas Law School Alumni Association Executive Board
 - Former Chair, Leadership Circle and former Board member and President, Communities-In-Schools, Central Texas Chapter
 - Member, Leadership Circle, Communities-In-Schools, Central Texas Chapter
-

SELECTED CLIENT REPRESENTATIONS

- A midstream oil and gas company in air quality permitting and enforcement matters.
- An energy company on UIC permitting and other issues associated with CCS.
- Energy service companies in complying with GHG reporting issues.
- An E & P Company in resolving federal offshore discharge liabilities.
- A number of companies in litigating and settling claims involving the USOR Superfund site.
- An oil and gas company in obtaining a dismissal of an EPA Clean Air Act general duty clause enforcement action regarding a release of air emissions.
- ExxonMobil as a designated expert on state air quality enforcement in a federal Clean Air Act citizen suit involving its Baytown Complex.
- SWEPCO as an expert witness before The Texas Public Utility Commission on prudence in resolving environmental litigation regarding its pulverized coal-fired power plant in Arkansas.
- A multinational energy company in environmental counseling regarding its proposed multi-billion dollar gas to liquids facility on the Gulf Coast.
- Consolidated Graphics in environmental due diligence, counseling, and contract drafting relating to its merger with RR Donnelly and in its own acquisitions of various other printing companies and assets.
- EOG in environmental counseling in its negotiations with ExxonMobil regarding a joint venture to conduct oil and gas exploration and production activities at the King Ranch.
- Deutsche Bank in environmental counseling regarding its loan to fund construction of a \$7.5 M biomass-to-energy facility on the island of Kaua'i.
- A manufacturer in negotiating a settlement for de minimis PRPs in the Malone Services Company Superfund Site.
- An energy company in negotiating a settlement for de minimis PRPs in the SESCO State Superfund Site.
- An oil and gas company in environmental counseling and in settlements of TCEQ administrative and State of Texas judicial air quality enforcement actions involving gas exploration and development.
- An oil and gas company in environmental counseling and settlement of EPA Clean Water Act wetlands administrative enforcement action involving pipeline construction.
- An oil and gas company in working with EPA and TCEQ in "deflexing" its air quality permits.
- An investment firm in evaluating potential environmental risks associated with hydraulic fracturing.

- A metals recycler in negotiating settlement of a state Superfund enforcement action.
 - The Department of Treasury in environmental due diligence of General Motors Company assets.
 - Lenders on environmental issues with the TXU Buyout and with issuance of a series of new notes.
 - Asarco, Inc. in a series of environmental estimation hearings in bankruptcy court involving historical operations in Coeur D'Alene, Omaha, and Tacoma.
 - American Airlines in settling litigation in bankruptcy court with United Airlines regarding contamination at JFK Airport.
 - An energy company in the air quality permitting of a number of gas-fired peaking plants in Texas.
 - El Paso Corporation in negotiating a RCRA/CERCLA consent order with EPA Region 6 and a comparable order with TCEQ and as a plaintiff in related private party Superfund litigation in federal district court in Houston.
 - A national real estate company on environmental issues relating to the sale of its national portfolio of commercial properties.
 - A state medical school in NEPA issues associated with the development of a level 4 bio-containment facility in Galveston.
 - An energy trade association with regard to NEPA issues associated with oil and gas development in New Mexico.
 - The State of Texas in litigating and settling federal Clean Water Act enforcement cases in federal district courts in Houston and Tulsa against an independent energy company for more than 300 pipeline oil spills in six states.
 - Chemical Waste Management in permitting a hazardous waste incinerator facility in Port Arthur, Texas.
 - Marathon Battery in settling claims regarding the Marathon Battery NPL Superfund site involving contamination of the Hudson River and an adjacent cove, marsh, and former battery manufacturing facility.
-
