Chad Hammerlind is an associate in the Intellectual Property Practice Group in the Austin office of Haynes and Boone. While practicing at Haynes and Boone, Chad has helped clients obtain hundreds of patents including over 120 patents in 2020 alone. His primary practice includes drafting and prosecuting patent applications relating to medical devices, electrical systems, telecommunication systems, Information Technology (IT), unmanned aerial vehicles (UAVs)/drones, Internet of Things (IoT), cloud computing, artificial intelligence/machine learning, geophysics, augmented reality, blockchain, autonomous vehicles, and software.

---

### EDUCATION AND CLERKSHIPS

- J.D., William Mitchell College of Law, 2011, *cum laude*; Executive Editor 2010-2011, Staff Member 2009-2010, *Cybaris* (William Mitchell's IP Law Journal)
- B.Bm.E., University of Minnesota, 2006

His practice also focuses on obtaining foreign patent protection from domestically filed patents as well as assisting foreign entities and foreign law firms in entering the US patent system with their foreign filed applications. Specifically, Chad has worked on many Chinese and European applications.

Prior to becoming a lawyer, Chad was an engineer in the medical physics and radiation oncology field. He led installations and commissioning of multimillion-dollar radiation oncology treatment systems around the world including imaging systems, patient positioning systems, radiation collimators, and cancer treatment planning software.
