PRACTICES Intellectual Property, Patent Office Trials, Trademarks, Technology Transactions

Jolene Robin-McCaskill draws on experience and advanced degrees in science, engineering, and geophysics to assist clients with the management of their patent portfolios, patent prosecution and litigation before the Patent Trial and Appeal Board.

Prior to joining the firm, Jolene utilized her B.S. in Electrical Engineering, M.S. in Applied Physics and Ph.D. in Geophysics as an Electrical Engineer, a Geophysical Experimentalist and a Petrophysicist with a Fortune 500 E&P company. Jolene's background allows her to provide advice to clients on a spectrum of scientific and technical matters.

Jolene's experience includes managing the petrophysical drilling program for an international oil well, designing and constructing a novel experimental system for extracting acoustic properties of irregularly shaped rock samples, and providing engineering design and maintenance support for energy transmission facilities.

Jolene is also committed to the advancement of female and diverse attorneys in the legal community. She serves as a member of the firm's Diversity and Inclusion, Women's and Working Parents initiatives. Jolene is also an active member of "Stanford Where You Live," Stanford University's Alumni Organization.
