PRACTICES Shipping, Energy, Power and Natural Resources, Finance, Corporate

Kayley Rousell is an associate in the Energy, Power and Natural Resources Practice Group in the London office of Haynes Boone.

Kayley has a wide range of transactional experience, principally in the context of energy and infrastructure projects and the renewables, oil and gas and shipping sectors, across a range of international projects including the UK, Europe, the Middle East, Africa, Asia and the Americas.

Her energy and infrastructure practice primarily focuses on advising funders and sponsors in the financing, development, acquisition and disposal of energy and infrastructure projects. Kayley has a wide range of experience in the structuring, drafting and execution of finance and security documents.

Her shipping, renewables and oil and gas practice focuses on contracts and other project documentation for high-value and complex projects in the oil and gas, shipbuilding, offshore construction, drilling, floating production (FPSO and FLNG) and renewables sectors. She advises on ship/offshore asset sale and purchase transactions, charterparties and wider projects involving the recycling of ships and other offshore assets (including FPSO, FLNG, LNG and drilling rigs).

Kayley is a regular contributing author to a number of industry journals and her articles have recently been published in Infrastructure Investor and Clean Energy Pipeline.
