PRACTICES Intellectual Property, Patents, Patent Prosecution and Counseling, Technology Transactions, Healthcare and Life Sciences, Pharmaceuticals, Healthcare Transactions and Regulatory, Precision Medicine and Digital Health, Technology, Chemical, Oilfield Technology

Evert Uy Tu's practice is focused in the area of intellectual property law, with a particular emphasis on patent law. Her experience covers a wide variety of technologies including chemical or pharmaceutical formulations, processes, and methods of treatment, anti-corrosive coatings, oilfield chemicals, specialty fibers and inorganic materials, agricultural chemicals, beverage filling systems and methods, business methods, food chemistry products, materials science, office supplies, oil drilling equipment, activated carbon technology, semiconductor manufacturing, and medical devices. Her practice includes preparation and prosecution of patent applications, along with patent counseling and opinions in connection with ANDA filings as well as other commercial products and services, including patentability, freedom to operate, validity and non-infringement opinions.

Evert also assists clients with intellectual property due diligence and drafting intellectual property agreements, including licenses and confidentiality agreements. Evert regularly performs due diligence in connection with corporate transactions of biopharmaceutical companies.

Selected Client Representations

- Counsel pharmaceutical clients regarding patent issues in connection with ANDA filings
- Counsel pharmaceutical client regarding non-infringement and invalidity of patents directed to tamper-resistant formulations of opioids
- Prepare and prosecute patents to chemical and pharmaceutical compositions and processes
- Provide litigation support in a trade secret case involving activated carbon technology
